

## BATTERY REQUIREMENTS

If you are a manufacturer and supplier of batteries or accumulators, provide the Customer at the latest with the first delivered piece the documents and information according to the provisions of Title II, Part 3 of the Czech Republic Act No. 185/2001 Coll. on Waste, as amended, laying down the obligations of manufacturers:

- Declaration of fulfilment of the requirement of § 31a, article (1) of the Act.
- Data on the material and chemical composition of the product.
- Information on take-back and collection points in accordance with §31d, article (1) of the Act No. 185/2001 Coll., respectively in accordance with the Article 8 of Directive 2006/66/EC of the European Parliament and the Council on batteries and accumulators and waste batteries and accumulators and repealing Directive 91/157/EEC.

Documents and information can be provided to the customer as a part of accompanying product documentation, such as the instruction manual, maintenance manual, technical specification, etc.

Supplied batteries and accumulators must be labelled in accordance with §31c article (1) of the Act No. 185/2001 Coll. on Waste (see also Article 21 of the Directive 2006/66/EC).
